

Community Outreach Program

The students of grade 7th and 8th went to Earth Saviour's Foundation as a part of their community outreach program. The objective was to sensitise our children towards helping the abandoned and disabled senior citizens. This drive was conducted to instill a sense of empathy in our children towards our elders and senior citizens and to respect and understand the various community outreach services provided by Earth Saviors Foundation towards betterment of these bereaved seniors.

The session had started with a brief introduction by Karunanjali, who is the senior member of this foundation. She had put across the objective for setting up the organization and encouraged students to come forward and help in this noble cause. Afterwards, students performed a small dance and recited a small poem in front of them. They also made beautiful cards and distributed among them. Students prepared coconut ladoos, distributed them to celebrate the festivity of Diwali and interacted with them to know their side of the story.. Miss. Karunanjali had further acknowledged the students through certificates and trophies.

Showcasing dance and poetry.

Students made cards and distributed them.

Students made ladoos and distributed them to the people.

Students were acknowledged by Miss Karunanjali with certificates and trophies.
