13th OCT 2021

BRICS MATH COMPETITION

Dear Parents (Grades I - XII),

Greetings !

This is to inform you that the school has registered for BRICSMATH.COM an annual online competition being organized in Mathematics, for students of Grades I - XII in BRICS countries (Brazil, Russia, India, China, and South Africa).

The goal of the competition is to develop creativity among children and to motivate them towards learning. The tasks are given in the form of a game which makes the learning process more interesting and effective. The competition focuses on logical thinking and does not require any in-depth knowledge of school curriculum.

Please refer to the link - <https://in.bricsmath.com/> for log in. The login Ids of all students will be provided by the subject teachers. The login ids of students will also be available on ERP under 'homework' section for Mathematics.

The trial round for the competition is open till Monday, Oct 18, 2021. Students can do the practice as per their convenience.

We would request you all to please encourage your child to attempt the questions in the trial round. The results of the trial round do not affect the results of the competition. The main round will be conducted from 19th Oct to 22nd Nov 2021.

Wishing our children enjoyable Mathematics sessions.

Thank you

Warm Regards
Nidhi Tewari
Principal
