

Grade: 1 Virtual Field Trip – Exploring Neighbourhood  
Date: 11<sup>th</sup> September, 2020

Field Trips are important to help bridge the gap between education in the classroom and hands-on experience. School field trips are a vital part of any educational curriculum, whether online, virtual, or on a bus from school to the location of the field trip. Field trips make the learning more meaningful and experiential.

In the current pandemic, without school in session, RVS made sure that the learning should not stop even if it means a field trip in their Academic Calendar. Student of grade 1 were enthralled to witness the virtual trip of the places around their school through Google Earth Video.

The students were excited to see their school **Ridge valley**, their classrooms and places like **Appu Ghar**, **Galleria Market**, **Medanta hospital**, **rapid metro** etc. It enhanced their knowledge and vocabulary based on the topic neighborhood.
