

Country Corner – Exploring the World

Date of Event: 25.09.2020

Our little ones from Nursery and Kindergarten embarked on yet another virtual journey to different countries. They engaged themselves by creating their own travel bags carrying all the essential items, not to forget, the most important ones, masks & sanitizers which shows their awareness about the world around. EnRoute to their journeys, they learnt about different cultures, different art forms, different cuisines and different ways of greetings. Amidst all the differences, what our little ones learnt is an important life skill of spreading love and happiness that binds the entire world together. Here is the glimpse!
