SUMMER BREAK ENRICHMENT WORK

Dear Parent, (Grades IX and X)

With summer holidays around the corner, our hearts swell up with a spectrum of emotions. To maintain educational continuum and to keep in view the rejuvenation you need, an enriching homework for the holidays has been designed to keep them constructively busy.

MERAKI, the exhibition of Scholastic and Co-scholastic subjects, scheduled in the month of July, will feature our students' work and will undoubtedly be a celebration of creativity and cultural expression.

The project work assigned to the students have been planned to unleash the hidden talents of students and provide them an enjoyable learning experience. These assignments and projects will be graded as Portfolio assessments.

The school will reopen on Monday, 1st July 2024. We encourage all students to complete and submit their Summer Holiday Homework, shared via ERP, within the first week of July.

We wish you and your family a happy bonding time during the vacation.

Warm Regards

Ms. Nidhi Tewari
Principal
