MESSAGE FROM SCHOOL COUNSELLOR

Dear Parents,

Greetings!

My name is Bhamini Rautela-Pahwa, and I will be advising your wards for their higher education as well as working with them to build their unique profiles. In our one-on-one sessions, I would be helping them to identify and build on their skills and interests in both academics and extracurriculars.

We would do this through activities and projects like online courses, internships, passion projects, community service projects and more. In my experience as a college counsellor, I have seen many students grow personally and professionally when they go beyond the classroom and deeper into personal projects. This would also be a time for them to be curious, experiment and have fun while doing it. I will, of course, be there to guide them through this exploratory period.

For students of grades 11 and 12, we will focus on researching different college courses and career paths in addition to their profile building. In grades 9 and 10, I will be focussing more on profile building.

To be able to best assist them, I will be meeting students individually every 7-10 days. To kickstart this process, I would like the students to fill out a short Google form. Spend some time thinking about any questions they may have regarding higher education or any interests specifically that they would like to explore.

Google Form - [Counselling Information Form](#)

Looking forward to working with the students !

Wishing you all a great Dusshera break!

Warm regards,

Bhamini Pahwa
School Counsellor
